**EmPower Solar Honored with SunPower Residential Regional Top Producer Award**

**Island Park, NY, February 12, 2021** – EmPower Solar, a leading Long Island-based solar installer, has been recognized for helping to meet the growing demand for solar in the New York region.

The Residential Regional Top Producer Award highlights the success of the SunPower residential dealer with the highest shipment volume in its region of the United States. As a SunPower Elite Dealer, EmPower Solar is able to provide their clients with highly efficient, aesthetically pleasing panels, backed by an industry-leading warranty.

“Our mission is to empower clients with high performance solar systems, along with providing the highest quality workmanship,” said David G. Schieren, CEO of EmPower Solar. “Our longstanding partnership with SunPower helps drive that mission, and we thank them for celebrating our efforts over the past year.”

Despite the effects of COVID on the solar industry, in 2020 EmPower Solar was able to bring clean, renewable energy to hundreds of homes and over a dozen businesses, thereby offsetting 1,854 tons of CO<sub>2</sub>. The company was also able to grow to more than 100 employees and open a new operations center in Farmingdale, NY, allowing them to better serve their existing 3,500 clients across Long Island and New York City.

Under the Climate Leadership and Community Protection Act, New York State has an aggressive goal to transition to 70% renewable energy by 2030. With renewable energy currently accounting for less than 10% of energy on Long Island and in NYC, it is critical to deploy clean energy at a faster rate. This volume recognition enforces EmPower Solar’s commitment to the climate, to the region, and to this critical target.

**About Empower Solar**

EmPower Solar develops, engineers, installs, and services solar and battery systems for residential and commercial clients. Since 2003, EmPower Solar has empowered thousands of New York homeowners and businesses with 35 megawatts of distributed solar. Its vision is to create a new energy paradigm powered by clean, renewable energy for a more prosperous, healthy, and civil world. The company culture is defined by the [EmPowering Way](#), which results in consistent 5-star customer service reviews. For more information visit [empower-solar.com](http://empower-solar.com).
